

INDIA POST INDEX 1998 – 2003

M F Banham

In 1998 Max Smith published a detailed index¹ for the first 30 years of *India Post* to the end of 1997 (Issue 134). In the course of working on my collections I have found this publication very useful but six years have now passed and there have been no supplements. I decided some months ago to create an index for my own use but then seeing Peter Leever's plea for someone to do just this it seemed the right thing to do to offer my index to the members.

The index which follows covers the six years, namely 1998 to 2003, issues 135 to 157 inclusive. In discussion with the editor it was agreed that as much information as possible should be included to aid the user in estimating the relative importance of any reference. The main way of doing this is to give some idea of the length of the reference and so, as well as a description, page ranges have been given rather than just the starting page. Many items are

much shorter than a page and often come under regular features such as 'Letters to the Editor' (LTE), 'For the Record' (FTR), 'Reports of Meetings' (Meetings) and 'Queries and Answers' ('Q' or 'A' followed by the reference number). In many cases the Queries and Answers co-ordinator, David Padgham throughout this period, provides some comment or interim answer at the same time as the query is posed and using 'QA' followed by the reference number has indicated this.

Major articles often cover a range of topics worthy of separate listing and these generally follow, indented, the main title entry. Many topics can also be listed under two or more different headings and so almost all subjects appear at least twice in the list.

Items listed under the heading 'Postmarks' are, as a rule, illustrated. Inscriptions from postmarks, cachets etc. are given in upper case. A few

more general subjects are listed under the headings 'Convention States' or 'Indian States' but most are listed under the names of the State. Where appropriate States subjects will also appear in other places in the index e.g. Postal Stationery, TPOs etc.

The list is generally arranged alphabetically though subjects that are listed under some headings, e.g. Adhesives are arranged by reign with Imperial items followed by States items.

SALE

We have accumulated over the years back copies of India Post and we have copies since 1980 and some earlier ones too. These are an invaluable research tool containing a wealth of information from many of our past and present members. While stocks last and for a limited period, we are selling these to members at the giveaway price of just 65 pence, one euro or one US dollar each, plus the cost of postage and packing – they each weigh about 170 grams. Members living outside Europe should say whether they want delivery by surface mail or airmail. Members should pay by cash in their own currency or by sterling cheque. Orders should be sent to John Stevens.

We also have available INDIA POST Index 1967-97. This is a very detailed, 128 page index of what has been published and is a must for new and old members. It is an essential key into so many topics that have interested our members over the years. Copies are available, post free at £9 from Cliff Gregory, 35 Stafford Road, Sidcup, Kent DA14 6PU. American members can order through John Warren. Copies of articles can be ordered from Martin Blatt our Librarian. All addresses are on our masthead page.
